Château de Panigon red wine 2011
AOC Médoc

Terroir: One of the most remarkable features of Château de Panigon is its exceptional terroir. The estate is located on the slopes of Civrac-en-Médoc, North-east of the city of Lesparre, and benefits from the influence of both the Atlantic Ocean nearby and the Gironde river estuary. They offer together favorable climate conditions that help the vines to ideally grow and the grapes to easily reach excellent maturation.

The vineyard lies on gravel slopes that are worth the greatest terroirs of the Medoc. It is composed of three grape varieties: Cabernet Sauvignon (45 %), Merlot (50 %) and Petit Verdot (5%).

Harvesting: by hand and mechanical with selective plot sorting

Wine making: barrels 100 %, new barrels 33 %
From 12 to 18 months

Tasting note February 2013: Once again a magnificent Medoc produced by the team at the Chateau. First the brilliance of its blackness shot through with bright red gleams catches your eye. Then, in its turn, your nose is captivated by the originality of its aromas, for rare is the red wine that expresses itself in a register of broom flowers and irresistible aromas of warm buttery Viennese pastries. Roll the tannins around your tongue and your mouth will fill with liquor ice sticks, cocoa and liquor ice mint candy, as if you were chewing them. And in its generosity the Chateau de Panigon leaves you with the memory of lingering spices, of Sichuan pepper and star anise. Are you ready for this voyage of discovery of the senses?

Food matching: roast lamb, rib steak, ceps with parsley and garlic sauce, roast duck, strong cheeses
